LASER TAG At a number of these sites we are now operating Laser Tag systems also. These can best be described as Paintball without the bruises, the equipment we use at the majority of the sites is Action Tag by Battlefield Technologies Ltd which is a state of the art wireless system used by the military in training scenarios.

These have a greater range and accuracy than paintball allowing for more realistic scenarios and with a computer printout of who you have "killed" at the end of the day, this eliminates the I have killed 23 scenario in the pub when the score sheet reveals they have in fact fired 750 rounds and only hit 2 people. Coupled with the realistic weapons is the fixed price, one fee no paintballs to buy and unlimited shots, we feel this is the paintball of the future, to play please ring us on 0870 774 0153 for your nearest site.

Ideal for experienced paintball players who want more realistic scenarios and are fed up with the inaccuracy of paintballs, also for those of you who enjoy the paintball but not the bruises. because of this it has a growing market with not only hen parties, but kids birthday parties, who can hire the equipment for a children's game.

PS Battlefield Technologies Ltd keep the highest scoring 10 players in the country on their web site, do you think you are good enough to be ranked????

Availability - We run this any day if advance notice given

SONG MAKER Brief This experience is ideal for those looking for a unique experience on a hen or stag day. It is a great fun start to your hen or stag party. Limo hire can be arranged for pick up and drop off. Food and drink can be brought into the studio, as long as you don't spill it on the mixing desk **PLUS** you can each take home a CD of the finished recording to remember your day!

More Information This experience lasts for 3.5 hours. On arrival your party will be greeted by one of our engineers who will assist all of you with recording your song. Once you are happy with the backing track, you will then go into the vocal booth & record your vocals. Record together or take it turns to do parts of the song, it's up to you. Once you are happy with your performance, you can all then join the engineer at the mixing desk & add vocal effects, change the volume of the vocals & be as creative as you want. The track will then be 'Mastered' & a CD will be created for each of you to take home. Larger groups can be split into 2 groups to form 2 super groups or they can all record together. If you would like to bring your own food and drinks along please contact us first. Alternatively, we are able to provide food and drink at some locations. Please contact us for further information.

Availability All year round, weather not permitting.
